BEACH CLEAN

Embark on an exciting and educational adventure while making a positive impact on the environment. Join Raglan Rock's Environmental Beach Clean, and join forces with us to protect the beautiful beaches of Raglan.

Start the day by visiting Raglan's community run Resource Recovery Centre, Xtreme Zero Waste. This is an opportunity to learn about Raglan's incredible recycling efforts, why Xtreme was created, and to inspire students to reduce, reuse and recycle by visiting the recycling processing areas.

From there, we hop aboard the Wahine Moe, a fantastic charter boat that will transport our group to a chosen spot within Raglan Harbour, it's then time to put on your gloves, grab a bag, and become an environmental superhero! Raglan Rock's mission goes beyond cleaning up. We aim to understand the root causes of pollution, so all the rubbish we collect will be carefully separated and analyzed as we go.

ENVIRONMENTAL EDUCATION

We'll enjoy a 1-hour educational harbour cruise home before discussing our findings and examining the different types of waste we've discovered to try and determine their origins. Through this analysis, we'll gain valuable insights into the sources of pollution, allowing us to upload our research to a national database enabling environmental scientists to develop strategies to prevent future littering, and protect our precious marine ecosystems.

By participating in Raglan Rock's Environmental Beach Clean, your school group will not only contribute to the preservation of Raglan's natural beauty but also engage in an interactive learning experience. Your students will learn about the impacts of pollution, the importance of being sustainable, and how small actions can make a big difference.
